Jurisdiction

(Reason for this case to be filed in federal court of America)

The reason for me to file this case in federal court of America is because of the lack of consideration and abuse of jurisdiction from local, State, and U.S. Federal Corporation agents/Defendant's.

Statement of Claim:

March 12, 2010 I Curt-Allen: of the family Byron mailed out by certify mail my letter of Declaration and Claim to all the American agents and California State agents listed above. I gave them three days to establish my Declaration and Claim within their system along with all other foreign States system. I also requested proper Californian and American identification for me to engage in public affairs. I Curt-Allen: of the family Byron received no reply from any of the agents addressing my Declaration and Claim. (Find Declaration and Claim attached).

April 3, 2010 02:44 hour I was pulled over by Marysville police officer M. Sargent #1146 in city of Arlington. I asked if there is an emergency and he replied no but your vehicle has no license plates. I asked if anyone was hurt or harmed in anyway. He replied no and asked to see my driver's license and registration and insurance. I replied I give you no consent or any just power over me. He completely disregarded my directive to him and proceeded with detaining me by reaching his hand into my Honda Passport unlocking the door and pulling me out under the threat of being tazered.

Arrived at the Marysville Police Department for booking. I did not give consent to their booking and removal of my clothes for them to put on their jailhouse clothes and slippers. They immediately told me that I would have to go to Snohomish County Corrections if I don't consent. They decided to removing my jacket after I have given them no consent or any just power over me. I resisted protecting my property and they decided to force me to the floor to remove my jacket along with my shoes and socks. They applied much pressure by bending my wrist in an unbearable position to make me consent. But they did not remove the remainder of my clothes they only wanted my jacket, shoes' and socks. Later I learned why they wanted these items. They placed me into the booking cell in a very uncomfortable position of not having anything warm to wear in a cold concrete cell until they transported me to Snohomish County Corrections. They transported me without my jacket, socks and shoe's (Lack of consideration).

Arrived to the Snohomish County Corrections and I went through the same process as Marysville Police Department by giving them no consent or any just power over me. They placed me into there booking cell which is only concrete floor, concrete bench and brick walls with a steel sink and toilet. I was only wearing a T-shirt, underwear and a very thin light in weight jogging pants. It did not take long for me a 125lb man to get cold. Later one of the correctional sheriffs told me the reason why they have it cold is to make it uncomfortable for anyone to want to stay there so they would just move forward quickly with the booking process and go up stairs where they can have a more comfortable conditions. Well in my eyes I was not suppose to be there because I gave them no consent or any just power over me. I requested a blanket and they denied me. I requested an ace bandage to wrap up my left-hand wrist and they denied me. For lack of consideration they denied me a phone call as well. They continually taunted me to consent by putting on their jailhouse clothes and I continually replied with no consent. I have repeatedly requested to see a judge under his oath in private chambers and I was denied this. They later told me that a judge will be there on Sunday for a public hearing but would not see me if I am not wearing their jailhouse clothes. I did not consent. I was wrapping my feet with toilet paper to keep them warm and I placed a pile of toilet paper on the floor so I can stand comfortably on the concrete floor. One of the sheriffs asked me why there is a pile of toilet paper on the floor, I told him why and they removed me from this cell and placed me into a cell with no toilet paper. I requested toilet paper but they denied me this. When I had a bowel movement to relieve myself I had no toilet paper to clean myself so I used my hand and water. There was no soap. They attempted to force me to go through the booking process but I resisted for my protection. They later aloud me to take a warm shower but too only coerce me to change into their jailhouse clothes. I took the warm shower with great appreciation but did not consent to wearing their jailhouse clothes. They placed me back into the cold cell again. On Monday in seams that they decreased the temperature of the cell so I asked a sheriff about this and he said that it was a little warmer that day outside and also they have the booking room cold in order for the detainees to cooperate quickly with the processing. Many time's I would tell them that I am cold and cant sleep and different sheriffs would tell me to consent to the jailhouse clothes and the processing in order for me to go up stairs in a more comfortable conditions. I did not consent. Later they told me that they did not want me there anymore so they were going to turn me over to Marysville. I have been awake at this time since March 2, 2010 around noontime. I was only able to close my eyes off and on for only a few minutes. I believe that at one time I closed my eyes for 15 minutes because I got up very cold to the bone. It did not take long to get cold when I am not moving around to keep my blood flowing.

My Mother came to communicate with me on giving her the power of Attorney to get my Honda passport out of tow storage. They have denied me this.

March 6, 2010 at 03:30 hours Marysville picked me up and took me to the Marysville Police Department. I asked for my shoes and socks and they gave them to me because they realized that I was very cold. We arrived to the Marysville Police Department and they did give me a blanket and mattress. I was finally able to go to sleep for the first time from being awake for 88 hours and approximately 72 hours in a cold cell. In the morning approximately 10:00 hours judge Laurie Towers requested my presents and I did not consent. The correction officer spoke with me and asked what they could do for me in order to speak with the judge. I said to summons me by my name Curt-Allen: of the family Byron because I recognize BYRON, CURT A to be the name used on the driver's license. I have already revoked and rescinded that signature to that contract with my Declaration and Claim letter. Therefor I am not bound to that contract and neither are the corporate State of California and the rest of the several states for that matter. I also have not made this contract agreement with the corporate State of Washington. He agreed to make that change so when they came to get me they said that I could not go in with my shoes but had to use there jailhouse slippers. I did not consent at first but later I put on just the jailhouse slippers. I believe this was my mistake of coming under their jurisdiction. Because when I told judge Towers that I was not under their jurisdiction she later on the record said that I was to come back into her jurisdiction. I could not understand how she could do that until later I realize it was the jailhouse slippers that they subtly coerced me into wearing. Also how can this hearing be fair and just when judge Towers represents the City of Marysville and Arlington along with the prosecutor and police. There is definitely a conflict of interest.
